Emerging treatments for patients with cancer:

practical guidance and expert insights

Monday 11 September
13:00 - 14:30

Sevilla Auditorium, Hall 9, IFEMA,
Feria de Madrid, Madrid, Spain

During the ESMO 2017 Congress, TESARO is holding an educational symposium that will examine how to improve treatment for patients with cancer.

The symposium will focus on recent developments in the prevention of chemotherapy-induced nausea and vomiting and also review emerging treatment options for patients with ovarian cancer.

A panel of experts will provide their insights, as well as offering practical guidance for daily clinical practice.

The symposium is being held on Monday 11 September at 13:00, with refreshments provided. We look forward to welcoming you to what promises to be an interesting and stimulating event.
