

The Danish Cancer Society

- It is very well-known and highly respected in the population
- We have many members
- The Cancer Society plays a dominant when it comes to both research, patient support and prevention
- We finance half of all cancer research in Denmark
- We are considered by the population to be the general mouth piece of the Danish cancer patients
- And we are listened to by politicians and administrators

The Danish Cancer Society

The Danish Cancer Society

Cancer treatment without delays

Starting the 1st of January with
