

# Immuno Oncology Research and Development in Solid Tumors

## Invitation

Dear colleagues,

On behalf of Bristol-Myers Squibb, it is my pleasure to invite you to the Industry Satellite Symposium with the topic "Immuno Oncology Research and Development in Solid Tumors," as part of the ESMO Immuno Oncology Congress 2017 in Geneva, Switzerland.

In this symposium, we will disclose the latest development in thoracic malignancies, the current considerations in genitourinary carcinomas and the role of melanoma as a model tumor in immuno oncology. New perspectives in immuno oncology research agents and emergenging indications will also be reviewed by our participants.

We anticipate that the high levels of interaction and analysis provided by the symposium will inform and benefit your clinical practice, and we look forward to welcoming you in Geneva.

Best regards,  
Prof. Arnaud Roth, MD  
Geneva, Switzerland  
Meeting Chair

Friday, 8 December 2017 | 13:00 – 14:00  
Palexpo – Room C  
Geneva, Switzerland

## Program

- 13:00 **Welcome and Introductions**  
*Prof. Arnaud Roth, MD*  
*University of Geneva*  
*Geneva, Switzerland*
- 13:05 **Latest Development in Thoracic Malignancies**  
*Prof. Solange Peters, MD, PhD*  
*University of Lausanne*  
*Lausanne, Switzerland*
- 13:20 **Current Considerations for GU Malignancies**  
*Prof. Viktor Grünwald, MD*  
*Hannover Medical School*  
*Hannover, Germany*
- 13:30 **Melanoma as Model Tumor and New Perspectives in Immuno Oncology**  
*Prof. Paolo A. Ascierto, MD*  
*National Tumor Institute Fondazione G. Pascale*  
*Naples, Italy*
- 13:50 **Discussion and Closing Remarks**  
*Full Panel / Prof. Arnaud Roth, MD*
