

# TREATMENT GOALS AND OPTIONS IN METASTATIC SOFT-TISSUE SARCOMA: CASES AND CONUNDRUMS

**WEDNESDAY, 7 FEBRUARY 2018, 14:20-15:20**

MILAN MARRIOTT HOTEL, VIA WASHINGTON 66, MILAN, ITALY | **ROOM:** SALONE WASHINGTON A

*In this interactive, case-based symposium, leading experts will discuss best practices for the treatment and management of non-gastrointestinal stromal tumor (GIST) soft-tissue sarcoma (STS)*

## PROGRAM AGENDA

**14:20 – 14:25**

### *Introduction*

William D. Tap, MD

**14:25 – 14:45**

### *Case 1: Patient With Advanced Non-GIST STS Who Did Not Receive Prior Doxorubicin*

Jean-Yves Blay, MD, PhD

**14:45 – 15:05**

### *Case 2: Patient With Advanced Non-GIST STS Who Did Receive Prior Doxorubicin*

Robin L. Jones, BSc, MB BS, MRCP, MD

**15:05 – 15:15**

### *Panel Discussion*

**15:15 – 15:20**

### *Closing Remarks*

## LEARNING OBJECTIVES

Upon completion of this activity, participants will:

- Have increased knowledge regarding the
  - Current unmet needs of patients with non-GIST STS
  - Key patient selection criteria to optimize therapeutic risk-benefit of available treatment options
- Have greater competence related to
  - Selecting treatments appropriate to patient needs and goals of therapy
  - Identifying and managing emerging adverse events of treatment to optimize patient quality of life
