

ADVANCED COURSE ON
INDIVIDUALISING THE
THERAPEUTIC APPROACH
IN PATIENTS WITH NENS

**ESMO Advanced Course on
Individualising the therapeutic approach in patients with NENS**
14-15 June 2019
Barcelona, Spain

Co-Chairs: Nicola Fazio, Italy
Juan Valle, United Kingdom

Speakers: Guido Bonomo, Italy
Jaume Capdevila Castillon, Spain
Simona Glasberg, Israel
Prakash Manoharan, United Kingdom
Massimo Milione, Italy
Anders Sundin, Sweden
Els Nieveen van Dijkum, Netherlands
Chris Verslype, Belgium

Learning Objectives

- To learn the bases of diagnosis, characterisation and staging of Neuroendocrine Neoplasms (NENs)
- To understand the essentials in the assessment and the value of multidisciplinary management of patients with NENs
- To understand the diagnostic and therapeutic role of nuclear medicine within the global clinical strategy
- To learn how to integrate and to sequence the available therapies in the management of a patient with advanced NENs

Friday, 14 June 2019

09:00-09:20 **Welcome and course overview**
Nicola Fazio, IT
Juan Valle, UK

09:20-11:10

Session 1

Terminology, diagnosis, characterisation and staging

Role of pathology (25')

Massimo Milione, IT

Role of radiology (25')

Anders Sundin, SE

Role of nuclear medicine (25')

Prakash Manoharan, UK

Clinical features (10')

Simona Glasberg, IL

Discussion (25')

Faculty

11:10-11:30

Coffee break

11:30-13:20

Session 2

Therapeutic approach

General criteria of therapeutic strategy (15')

Nicola Fazio, IT

How "functionality" makes a difference to patient care (25')

Simona Glasberg, IL

Systemic antitumour therapies (20')

Jaume Capdevila Castillon, ES

Peptide Receptor Radionuclide Therapy (PRRT) (20')

Prakash Manoharan, UK

Discussion (30')

Faculty

13:20-14:20

Lunch

14:20-15:50

Session 3

How to manage specific clinical situations

Clinical management of low grade Gastroenteropancreatic (GEP) NENs (25')

Chris Verslype, BE

Clinical management of intermediate grade GEP NENs (25')

Nicola Fazio, IT

Clinical management of high grade GEP NENs (25')

Juan Valle, UK

Discussion (15')

Faculty

15:50-16:05 **Coffee break**

16:05-16:50 **Session 4**
Liver-directed treatments
Interventional radiology procedures (15')
Guido Bonomo, IT

Liver metastasectomy (15')
Els Nieveen van Dijkum, NL

Discussion (15')
Faculty

16:50-17:50 **Session 5**
Novel therapies
New Tyrosine Kinase Inhibitors (TKIs) (15')
Jaume Capdevila Castillon, ES

Primary tumour removal in metastatic disease (15')
Els Nieveen van Dijkum, NL

Clinical trials of medical therapies combined with PRRT (15')
Chris Verslype, BE

Discussion (15')
Faculty

19:00 **Networking dinner**

Saturday, 15 June 2019

09:00-12:30 **Workshops sessions**
Three parallel workshops sessions with 20 delegates in each group (delegates will attend all 3 sessions on a rotation basis)
15' Introduction based on clinical cases presented by speakers
40' Discussion
5' Break

Workshop 1 **Challenges in diagnosis, characterisation and staging**
Massimo Milione, IT
Simona Glasberg, IL
Anders Sundin, SE

Workshop 2 **Practical application of nuclear medicine theranostic approach**
Nicola Fazio, IT
Prakash Manoharan, UK
Chris Verslype, BE

Workshop 3 Integrating therapy choices for advanced disease

Jaume Capdevila Castillon, ES

Juan Valle, UK

Els Nieveen van Dijkum, NL

11:00-11:30 Coffee break

12:30-13:00 Feedback on the workshops from each group

13:00-13:30 Synthesis and wrap-up

Nicola Fazio, IT

Juan Valle, UK

13:30-14:30 Lunch
