

EISAI SCIENTIFIC EXCHANGE SYMPOSIUM

ESTROGEN RECEPTOR POSITIVE (ER+) ADVANCED BREAST CANCER – WHAT ARE THE THERAPEUTIC APPROACHES OF THE FUTURE?

Chair: Prof. Pierfranco Conte
University of Padova | Padova, Italy

Scientific Exchange Objectives:

- Learn about the innovative future treatment strategies in development for ER+ Advanced Breast Cancer care
- Have the opportunity to give your insights on the clinical development of these new agents to improve patient outcomes and clinical relevance to your practice

SYMPOSIUM AGENDA

Presentation 1: What is the basis of resistance to current ER+ therapies and what is the magnitude of the clinical problem?

10'

Prof. Pierfranco Conte
University of Padova | Padova, Italy

Presentation 2: What are the broad strategies for mutation directed therapy?

- Is there a role for an orally-available Selective ER alpha Covalent Antagonist (SERCA)?

30'

Prof. Dejan Juric
Massachusetts General Hospital | Boston, USA

Debate with the delegates led by chair

20'

Prof. Pierfranco Conte
University of Padova | Padova, Italy
