

ESMO ADVANCED COURSE PROGRAMME
INDIVIDUALISING THE THERAPEUTIC APPROACH IN PATIENTS
WITH GEP NENs
Prague, Czech Republic
26-27 June 2020

CO-CHAIRS:	Nicola Fazio, Italy Angela Lamarca, United Kingdom	SPEAKERS:	Jorge Barriuso, United Kingdom Guido Bonomo, Italy Simona Glasberg, Israel Massimo Milione, Italy Vikas Prasad, Germany Marie-Pierre Vullierme, France Francesca Spada, Italy Halfdan Sorbye, Norway Els Nieveen van Dijkum, Netherlands Chris Verslype, Belgium
-------------------	---	------------------	---

LEARNING OBJECTIVES

- To learn the bases of diagnosis, characterisation and staging of Gastroenteropancreatic (GEP) Neuroendocrine Neoplasms (NENs)
- To understand the essentials in the assessment and the value of multidisciplinary management of patients with GEP NENs
- To understand the diagnostic and therapeutic role of nuclear medicine within the global clinical strategy
- To learn how to integrate and to sequence the available therapies in the management of a patient with advanced GEP NENs

Friday, 26 June 2020

09:00-09:20	Welcome and course overview Nicola Fazio, IT Angela Lamarca, UK
09:20-11:00	Session 1 Terminology, diagnosis, characterisation and staging
25'	Role of pathology Massimo Milione, IT
25'	Role of radiology Marie-Pierre Vullierme, FR
25'	Role of nuclear medicine Vikas Prasad, DE

25'	Discussion Faculty
11:00-11:30	Coffee break
11:30-12:55	Session 2 Clinical management of functioning NETs
30'	Carcinoid syndrome (Carcinoid heart disease and mesenteric fibrosis) Simona Glasberg, IL
30'	Chronic diarrhoea Chris Verslype, BE
25'	Discussion Faculty
12:55-13:50	Session 3 Locoregional treatments
25'	Radical and complete surgery in locally advanced non-functioning GEP NETs Els Nieveen van Dijkum, NL
30'	Role of non-surgical liver directed therapies Guido Bonomo, IT
13:50-14:50	Lunch
14:50-16:00	Session 3 / Continuation
15'	Current systemic therapies (apart from SSA and PRRT) Halfdan Sorbye, NO
10'	The ideal NET patient for PRRT Vikas Prasad, DE
10'	The right management of an SSA Simona Glasberg, IL
10'	Overview of guidelines for management of advanced disease Francesca Spada, IT
25'	Discussion Faculty
16:00-16:30	Coffee break

16:30-17:15	Session 4 New therapies
15'	New Tyrosine Kinase Inhibitors (TKIs) Jorge Barriuso, UK
15'	Immunotherapy Jorge Barriuso, UK
15'	Discussion Faculty
17:15-18:00	Session 5 MDT discussion
	<ul style="list-style-type: none"> - Refractory carcinoid syndrome in metastatic small bowel NET - Metastatic GEP NET: cytoreductive approach (liver directed therapies and primary tumour removal) Francesca Spada, IT and Faculty
19:30	Networking dinner

Saturday, 27 June 2020

09:00-12:30	Workshops sessions Three parallel workshops sessions with 20 delegates in each group (delegates will attend all 3 sessions on a rotation basis) 15' Introduction based on clinical cases presented by speakers 40' Discussion 5' Break
Workshop 1 60'	Challenges in diagnosis, characterisation and staging Massimo Milione, IT Marie-Pierre Vullierme, FR Simona Glasberg, IL
Workshop 2 60'	Technical and clinical indication to PRRT Vikas Prasad, DE Halfdan Sorbye, NO Chris Verslype, BE
11:00-11:30	Coffee break
Workshop 3 60'	Clinical approach to high grade GEP NENs Jorge Barriuso, UK Halfdan Sorbye, NO Francesca Spada, IT
12:30-13:00	Feedback on the workshops from each group

13:00-13:30 **Synthesis and wrap-up**
Nicola Fazio, IT
Angela Lamarca, UK

13:30-14:30 **Lunch**
