Learning Objectives

- To provide the oncology professionals in the region with updates on the optimal and multidisciplinary diagnostic and therapeutic approaches for the management of cancer patients
- Use of MCBS for health technological assessment and incremental cost efficiency ratio
- To review the current standard of care for key malignancies from a local and international perspective
- To discuss the current controversies in the management of specific cancers

Accreditation

The programme of this event has been accredited with **18 ESMO-MORA category 1 points**. Recertification is necessary for medical oncologists to remain professionally certified by ESMO. Recertification guarantees that a certified medical oncologist has continued to update her/his knowledge and continues to possess the necessary skills and standards for the practice of medical oncology. For further information please refer to www.esmo.org

Friday, 28 February 2020
