

THE IMPACT OF COVID-19 ON ONCOLOGY PROFESSIONALS

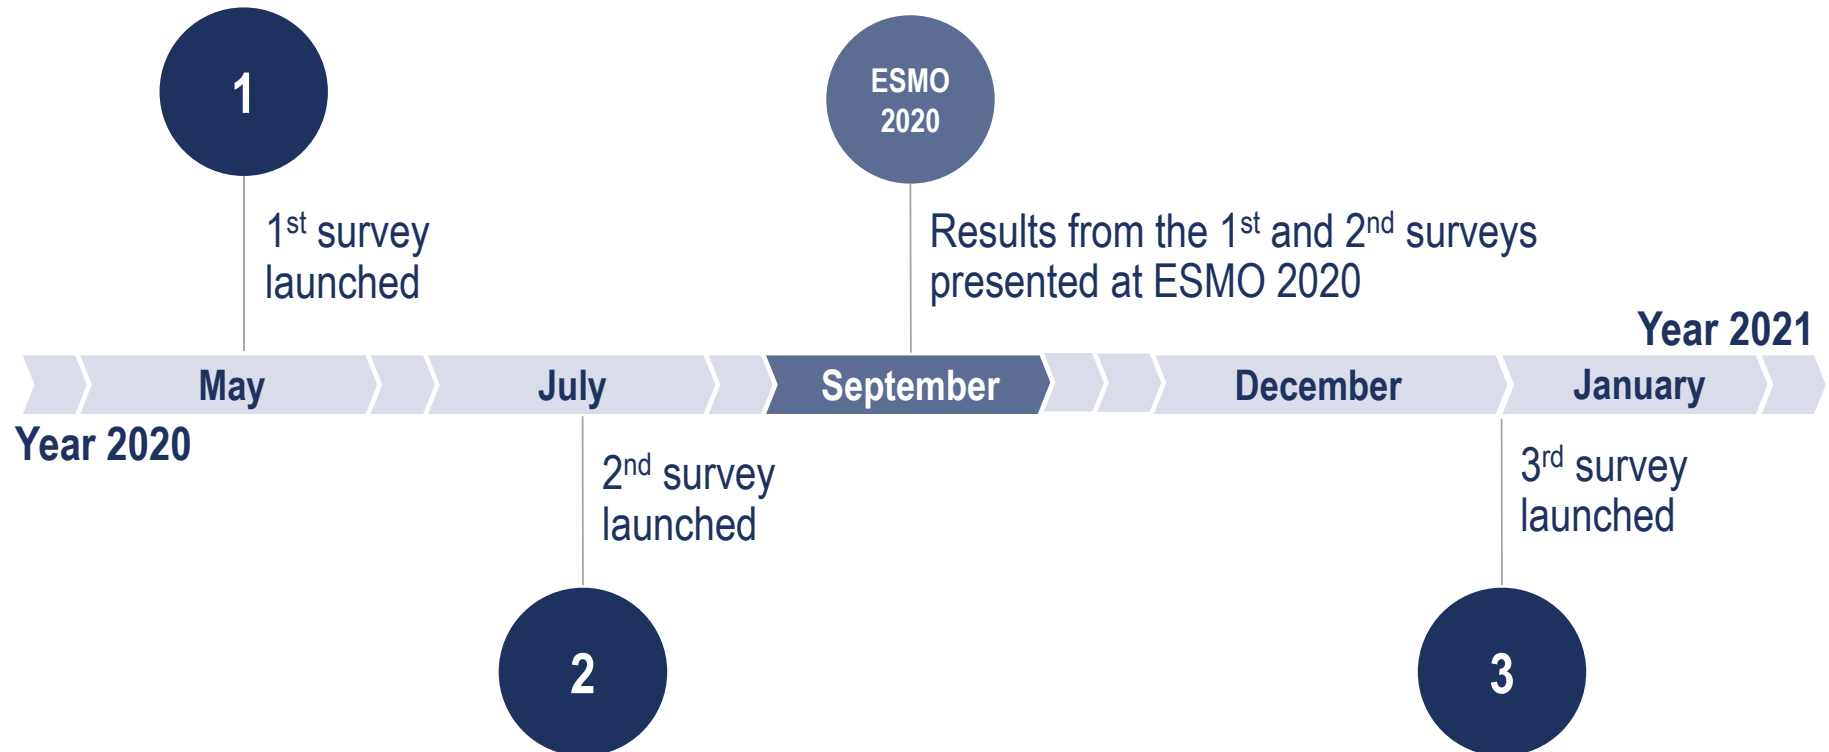

ESMO Resilience Taskforce surveys series in collaboration with the ESMO Young Oncologists Committee, ESMO Women for Oncology Committee, ESMO Leaders Generation Programme Alumni Members and the OncoAlert Network

A series of **global surveys** to evaluate how oncologists and other oncology professionals **across the world** are affected by the **challenges** posed by the COVID-19 pandemic, assessing changes to **routine practices**, well-being, **burnout** and current levels of support.

SURVEYS SERIES TIMELINE

The surveys cover relevant issues as the COVID-19 pandemic evolves and help assess the longer-term impact across countries
