Dear Industry Partners,

Immuno-oncology is here to stay as a stand-alone therapeutic domain in oncology. It joins chemotherapy, radiotherapy, molecular therapy and surgery as an effective weapon in the fight against cancer.

Mark your calendars, because the ESMO Immuno-Oncology Congress (9-12 December) is going virtual. Due to the current situation, we feel the need to protect all involved stakeholders and delegates, while allowing a wider participation to the event.

We invite you to take part in the ESMO Immuno-Oncology Virtual Congress, a global meeting aimed at building a truly international community of immuno-oncology stakeholders.

The ESMO Immuno-Oncology Virtual Congress 2020 will allow you to:
- Update your knowledge in the fast-developing field of cancer immunotherapy
- Understand what is in progress with other immune-related pathways beyond immune check-point inhibitors
- Review the current state-of-the-art in immunotherapy for the most frequent cancers
- Learn how to best use immunotherapy strategy in combination with other anti-cancer treatments

Don’t miss the chance to share your research and expertise with an even bigger community this year, thanks to our virtual format!

Platform, Virtual Exhibition and ePosters
8-12 December 2020
Official programme & Industry Satellites Symposia
9-12 December 2020

Important Note:

The platform and all activities will close on the 12 December 2020. However, the platform will remain available with the on-demand content and exhibition information until 15 December 2020.

Well organised planning makes for successful execution and the European Society for Medical Oncology (ESMO) together with its partner suppliers will be glad to guide you towards a congress rich in discussion and exchange for your organisation.

These ESMO Immuno-Oncology Virtual Congress 2020 Exhibitor Manual will guide you in the necessary steps of your participation at our brand new ESMO Immuno-Oncology Virtual congress.

Please read this document carefully and share with the necessary colleagues and agencies involved in the organisation of your ESMO Immuno-Oncology Virtual Congress 2020 activities.

Participation at the ESMO Immuno-Oncology Virtual Congress 2020 implies an acceptance of the requirements contained within these Industry Guidelines and also in any updates posted on the ESMO website.

2. EXHIBITOR PROFILE OPTIONS

2.1 Summary and general information

According to the selected package, companies can present products in their profile, invite to video meetings, chat with participants and collect contact information.

Further information with the exact specification, dimension and data formats can be found in chapter 4 of this document.

Companies will receive a direct backend access to enter all information and upload the corresponding content. Companies are asked to confirm the main “Profile administrator” contact by 9 November to immuno@esmo.org.

Details to be provided: first and last name, email address.

The “Profile administrator” will be able to add further staff members to the profile backend access to manage the content of the profile.

The backend access also includes a preview function through which the display of the various items and the overall profile can be checked directly, as viewed by the participants.

The general structure and items of a profile page is the same for all companies according to the sponsor package.

Companies can define their own categories, headings, displayed products, studies or other content. All content, such as videos, audio files and pdfs will be stored on the platform. Links to external contents/websites can be integrated in designated positions.

For the Integrated chat, exhibitors will be provided with a separate backend login through which all incoming messaged can be managed. Please provide the names of the staff members manning the chat to immuno@esmo.org by 23 November, according to your sponsor package and the entitled number of logins. Details to the provided: first and last name, email address.

Dedicated instructions on specific sections of the company profile and further details about the upload process on the backend will be provided by CTI, before the upload of content opens on 16 November 2020.

The ESMO Team will provide support for the configuration of the profiles.
2.2 Profile overview – mock-ups

3D Booth – Available only for Platinum Sponsors

2D Booth – Available only for Platinum, Gold and Silver Sponsors

As part of its continuous commitment to providing the oncology profession with outstanding learning and scientific tools, ESMO launched OncologyPRO on 16 July 2014, an educational online portal for oncology practitioners and researchers. OncologyPRO is a scientific and educational portal exclusively designed by ESMO to offer its members access to the latest information in new cancer therapies, prevention strategies and research breakthroughs in the easiest and quickest way.

The OncologyPRO portal is the leading source of up to date information on medical oncology for ESMO’s busy members who need to keep abreast of the many new discoveries in oncology and the relevance of these in the management of patients in their practices.
