

# ELCC 2022 Industry Satellite Symposium

## Enabling future improvements in cancer care with fast next-generation sequencing (NGS) results

**Date:** Thursday, 31 March 2022

**Time:** 18:15–19:45 CEST

**Location:** South Hall 2

### Featured presentations and speakers include:

#### **Complex biomarker-driven therapy landscape in non-small cell lung cancer (NSCLC) and the latest guidelines**

Federico Cappuzzo

Istituto Nazionale Tumori Regina Elena

#### **Molecular pathology—meeting the challenges of a rapidly evolving biomarker landscape**

James Beasley

Birmingham Women's and Children's NHS Foundation Trust

#### **Removing barriers to enable routine NGS testing**

Paul Hofman

Louis Pasteur Hospital

#### **Audience Q&A**

Moderated by Nicola Normanno

Symposium Chair

Istituto Nazionale Tumori IRCCS Fondazione G. Pascale

**ThermoFisher**
