

ELCC 2015 Industry Satellite Symposium

OVERALL SURVIVAL IN NSCLC: INSIGHTS AND EVIDENCE

Thursday 16th April 2015, 18:20-19:20

Room B

AGENDA

18:20-18:25

Welcome and introductions

Robert Pirker

18:25-19:15

Expert insights: Interactive discussion

Martin Sebastian, Martin Reck and Robert Pirker

- The importance of overall survival in advanced NSCLC
- Overall survival in EGFR mutation-positive patients in the first-line setting
- EGFR mutation-positive NSCLC: Practical considerations for patient management
- Overall survival: Targeting angiogenesis after first-line chemotherapy
- Treatment choice after first-line chemotherapy: Practical considerations for patient selection and management

19:15-19:20

Final questions and meeting close

Robert Pirker

FACULTY

CHAIRPERSON

Professor Robert Pirker
Medical University Vienna
Austria

SPEAKERS

Dr Martin Sebastian
University of Frankfurt
Germany

Dr Martin Reck
Lung Clinic Grosshansdorf
Germany
