WELCOME

Dear Industry Partners,

We invite you to save the date for the European Lung Cancer Congress (ELCC 2023), taking place as an onsite event in Copenhagen, Denmark, from 29 March-1 April 2023, while also providing online access to the congress.

The European Lung Cancer Congress (ELCC 2023) is a collaborative effort of the most important multidisciplinary societies representing thoracic oncology specialists, working together to advance science, disseminate education and improve the practice of lung cancer specialists worldwide.

During this event, delegates will be able to:

- Update their knowledge in prevention, screening and early detection of thoracic malignancies
- Review the current state-of-the-art in perioperative management of localised lung cancer and in systemic therapy of advanced tumours
- Learn how to best sequence or combine therapies in advanced non-small cell lung cancer
- Review the current and emerging contribution of precision medicine, big data and artificial intelligence, biomarkers and liquid biopsies in the optimal management of patients with thoracic malignancies

Make sure you connect to this highly interactive meeting and share your expertise with lung cancer specialists from all over the world. Thanks to its innovative format, ELCC 2023 is easily accessible to a global audience.

As a valued industry partner, you can benefit from a variety of sponsorship and exhibition opportunities, designed to offer optimal visibility to your content and messaging.

We look forward to collaborating with you in the lead up to this important meeting and we thank you for your invaluable support.

INDUSTRY SATELLITE SYMPOSIA

1. SATELLITE SYMPOSIA GENERAL INFORMATION

Satellite symposia will take place from 29 March to 1 April 2023 both onsite and on the VCP. Details of available slots may be obtained by email from the ESMO Events Sponsorship Team (sponsorevents@esmo.org).

1.1 Satellite Symposia Programmes

All satellite symposia programmes must be approved by the ELCC 2023 Scientific Committee prior to any invitations with a view to ensuring the scientific quality and scope of such symposia within the framework of the Congress.

Companies are strongly encouraged to establish a programme in line with the general concept of the Congress scientific programme. Current ELCC 2023 policy encourages the avoidance of topic and/or statement repetition, and/or lectures which may be in conflict with what the ELCC 2023 Scientific Committee considers to be a proper, scientifically well-founded point of view.

ESMO is working to ensure diversity amongst presenters, and companies are also highly encouraged to consider both gender and nationality balance when selecting satellite Chairs and speakers.

The ELCC Secretariat reserves the right to veto speakers. In order to ensure a greater diversity of opinion and scientific contribution, the ESMO Executive Board recommends that a speaker presents at no more than one (1) satellite symposium. However, if unavoidable, a speaker may be involved in a second satellite for a maximum of two (2) symposia during the Congress. Kindly note that this restriction applies regardless of whether the speaker receives an honorarium or not.

Additionally, and in accordance with ESMO Organisational Regulations, the following ESMO Officers are not allowed to participate (either as a Chair or Presenter) in any satellite symposium:

- Congress Scientific Co-Chairs
- ESMO Cancer Medicines Committee Chair
- ESMO Compliance Committee Chair
- ESMO Educational Committee Chair
- ESMO Guidelines Committee Chair
- Editors-in-Chief of ESMO Journals
- Deputy Editors-in-Chief of ESMO Journals
- ESMO-Magnitude of Clinical Benefit Scale Working Group Chair

All other ESMO Executive Board and Council members may participate in a maximum of two industry satellite symposia subject to approval by the ESMO Executive Board. This restriction does not apply to ESMO Colloquia. Details of the ESMO Council may be found via: www.esmo.org/About-Us/Who-We-Are/ESMO-Council

Any changes to the provisional or the final programme must be forwarded immediately for re-approval to the ELCC secretariat (programme@esmo.org). After the outcome notification, only minor changes will be taken into consideration.

Submitting an abstract to the ELCC 2023 Scientific Committee and the official Congress programme implies that the study reported therein will not be presented as such during the Congress at any Industry Satellite symposium and that it has not been presented elsewhere. Therefore, presenting an abstract certifies that it is not connected to any Industry Satellite Symposia.

Each company is also responsible for the registration of any satellite symposium speakers who are not participating in the official ELCC 2023 programme. Registrations are not arranged by ESMO. Queries may be sent to the ESMO Registration Services Department (registration@esmo.org).

1.2 Programme submission deadlines

On application	Each company should inform the ELCC Secretariat about the type of product(s) and the treatment area on which the satellite symposium programme will be based.
28 November 2022	Deadline for receipt of the programme proposals. The proposed programme, including symposium title, presentation titles, names and full contact details of proposed speakers and chairpersons, must be submitted to the ELCC secretariat (programme@esmo.org) using the official Congress programme template.
13 December 2022	The ELCC Secretariat sends out notification of acceptance, rejection and/or request for modifications to the programme as decided by the Scientific Committee. After this deadline, only minor changes will be taken into consideration.

Notes:

1. The above timeline has been established to give all sponsors equal opportunities to invite preferred Speakers and late submission of programme proposals cannot delay the overall approval process. Sponsors who do not adhere to the deadline risk not being able to invite preferred Speakers if they have already been confirmed for other satellites in accordance with this schedule.
2. It will be the responsibility of Speakers who have been nominated for more than two satellites to choose which to accept.

Please note that ESMO can act as a provider of sponsored educational satellite symposia, offering companies the benefit of the society's experience and knowhow to develop a truly independent symposium. If you are interested in receiving more information about ESMO Colloquia, please contact programme@esmo.org

1.3 Applications

The ESMO Events Sponsorship Department will approach companies with a proposal to participate at ELCC 2023. At the Congress, Satellite Symposia slots are assigned by sponsorship level and on a first come, first served basis.

2. ONSITE SATELLITE SYMPOSIA WITH ONLINE LIVE STREAMING

Companies interested in using a voting system can contact the ELCC 2023 Secretariat (elcc@esmo.org) in order to share costs, if feasible.

2.3 Technical and monitoring staff

One technical staff member and one hostess are assigned to each room. Please note that badge checkers are not provided for satellite slots. If you require this service, it will need to be booked separately. Please contact the ELCC 2023 Secretariat (elcc@esmo.org).

2.4 Alternative stage set-up, additional equipment and/or personnel

Owing to the limited set-up and dismantling time necessary between satellite symposia slots (15 minutes), change of setup is not allowed.

Additional audio-visual equipment should only be ordered through the official supplier. Please contact the ELCC Secretariat (elcc@esmo.org) for more information.

Due to the hybrid nature of the congress, and the specific set up put in place for the online streaming, it is not permitted to use an external technical supplier.

2.5 Session rooms lectern and panel table

Kindly be informed that the lectern can be branded. It is very important that the ELCC 2023 graphic will not be ruined, therefore, considering also the limited set-up and dismantling times, ESMO suggests you create a graphic which can easily be removed (e.g. forex panel). The company is responsible for printing and hanging the graphic. The size of the signage covering the furniture is the following:

	Dimensions
Lectern	H:120cm x W: 60cm

2.6 Lectern laptop usage

Due to the hybrid format of this congress, the following regulations will apply to the onsite laptop at the lectern in the assigned room:

- The laptop **cannot** be removed or un-cabled from the lectern
- It is strictly forbidden to upload any presentation on the laptop using a USB key
- No laptop set-ups can be changed

2.7 Online streaming of the onsite satellite symposium

Organisers can choose to live-stream/broadcast their Satellite Symposium to the ELCC 2023 Virtual Platform. The live streaming will give online delegates the opportunity to follow the Satellite Symposia in real time and post questions through the dedicated Questions & Answers function. While onsite, Satellite Symposium Chairs/assigned moderator will be able to read questions on a specifically dedicated device (tablet) and decide to answer those of interest. If the faculty or any of the moderator(s) are not onsite the satellite symposium in question will just be broadcast live in Auditorium 1, 2 and 4 within the designated time slot.

2.8 Lead System / Badge Scanner

The ELCC 2023 Lead Retrieval System is a fast and easy way to record visitors' contact information. By simply scanning a visitor's name badge with the supplied scanner, that contact is entered into your own visitor database, including all relevant product information or comments which have been added to these visitors' profiles beforehand. Following the event, approved visitors' address data can be provided in printed form or as a MS Excel file, or made available with proper access rights through an online platform. Further details are available in the Lead System brochure and order form on the ESMO website.

Badge scanners shall be ordered through the official supplier CTI Meeting Technology at leadsystem@ctimeetingtech.com

2.9 Food & Beverage

Requests for F&B functions should be addressed to the ELCC Secretariat (elcc@esmo.org), indicating the type of function (coffee break, cocktail, standing lunch, other) and number of guests.

The assignment of F&B time-slots and areas will be processed on a first come, first served basis. **Only when the time-slot and location are assigned will the company be given the contact details** of the catering person responsible for their requirements and through whom they can place their orders. F&B functions should not last more than half an hour. Whether they can take place before or after the satellite symposium will depend on the availability of the F&B area.

No food or beverages are allowed inside any of the auditoria, without previous permission from the ELCC Secretariat. However, an exception is made for water. Each company may offer water in plastic bottles to their Satellite participants. Of course, it is the responsibility of the company to clean the room after the session. If the organiser needs to intervene for cleaning purposes the **extra costs will be charged to the company**.

Please note also that any food items served in the Congress centre must be purchased through the official catering service.

2.10 Duration of the satellite symposium

All companies are obliged to respect the start and closure times of the satellite symposia. Extensions beyond assigned time slots are not allowed under any circumstances. Infringement of this regulation will affect the sponsors priority list for future ESMO Congresses.

2.11 Installation, rehearsal and dismantling times

The set-up and dismantling times are extremely limited and must be respected in full. Please refer to the online programme to check the timing. For additional queries please contact the ELCC 2023 Secretariat (elcc@esmo.org).

Rehearsal slots are free of charge (max. 30-minutes slot per Satellite Symposium) and can be requested via the ELCC 2023 Secretariat (elcc@esmo.org).

However, please note that:

- Rehearsal slots are not guaranteed
- Rehearsals will be assigned on a first-come, first-served basis
- Rehearsals may only be booked upon request and availability

Any request for rehearsals should be sent to the ELCC 2023 Secretariat (elcc@esmo.org).

2.12 Speakers preview centre

The companies organising a satellite symposium must use the invited speakers preview centre and follow the instructions that the ELCC 2023 Secretariat prepares for its own speakers.

The usage of the speakers preview centre includes:

- Direct PPT upload from the speakers preview centre to the Satellite Symposium room
- Support for the speakers/uploader in the speaker preview centre regarding the upload and management of the PPT presentations
- Stage assistant

Please inform by **13 March 2023** the latest the name of the designated representative that will be allowed to access the speaker centre and will be assisted in the upload of presentation(s) by our technicians.

2.13 Presentation material

2.14 Onsite faculty expenses

Travel:

It is the sponsor's responsibility to cover the travel expenses (flight/train/car) for all speakers and chairs participating in their satellite symposium, regardless of whether or not they are also invited to participate in the official ELCC 2023 programme.

Speakers will be instructed to claim flight/train/car reimbursement directly from the sponsor and will be notified that by participating in an industry satellite symposium, they are not eligible for any travel reimbursement from ESMO.

Accommodation:

Speakers in the official ELCC 2023 programme will be accommodated in the Faculty headquarters hotel. Depending on their speaker role(s) in the official programme, the remainder of their stay will be covered on a private basis.

Speakers who are not participating in the official ELCC 2023 programme must be accommodated by, and/or have accommodation expenses met by, the sponsor.

2.15 Satellite symposia contacts/representatives

Each company will provide the name of one person who will be responsible for the organisation of its satellite symposium and notify the ELCC 2023 Secretariat (elcc@esmo.org) as soon as possible about any changes.

If several people are responsible for various aspects (financial, organisational, etc.) of the symposium, the company must inform the ELCC 2023 Secretariat accordingly. The ELCC 2023 Secretariat strongly recommends, however, that only one (1) contact person is appointed.

If an agency is appointed to manage and organise the satellite symposium, the company must inform the ELCC 2023 Secretariat and provide the agency name and contact person details. Only official agency representatives will receive information material from the ELCC 2023 Secretariat.

Final Clause

In cases not covered by the regulations in these Industry Guidelines, ESMO interpretation shall be final.

ESMO PRIORITY LIST

The sponsorship point system has been designed to recognise sponsor investment in ESMO projects and sponsorship points are allocated in acknowledgement of each EUR 10,000 of sponsorship investment.

- a. Accrued sponsorship points define the position of each company in the ESMO sponsors priority list. The priority list identifies companies that will be offered visibility at, and privileged within, events such as the ESMO Congress and related activities, for example satellite symposia, Industry display area space, hotel accommodation, etc.
- b. When an equal number of points are held by 2 or more sponsoring companies, promotional opportunities will be assigned according to the monetary value of the requested opportunities.
- c. ESMO nevertheless retains the right to privilege smaller emerging companies when their products are innovative and the Society feels that their participation in the event would be of benefit to delegates. When satellite symposia are assigned in relation to this clause, the company guarantees that the programme will not be presented elsewhere before the ESMO Congress. Furthermore, all sponsorship items assigned in relation to this clause are subject to specific terms and conditions.
- d. Sponsorship points are cumulative but expire at the end of the 24th month after which they have been allocated.
- e. ESMO recognises the importance of long-term relationships. To this end, 2 points will be assigned to companies for their presence and loyalty on a yearly basis for a minimum of EUR 10,000 of support. The 2 points will not expire. However, for each calendar year during which a company has not been present (with any kind of support), the 2 points are deducted from the company's record.
- f. ESMO will also recognise the contribution to advancements in medicine and science at the ESMO annual Congress. ESMO will allocate one point for each abstract accepted for oral presentation with the mention "Study sponsored by..."
