

ESMO Colloquia

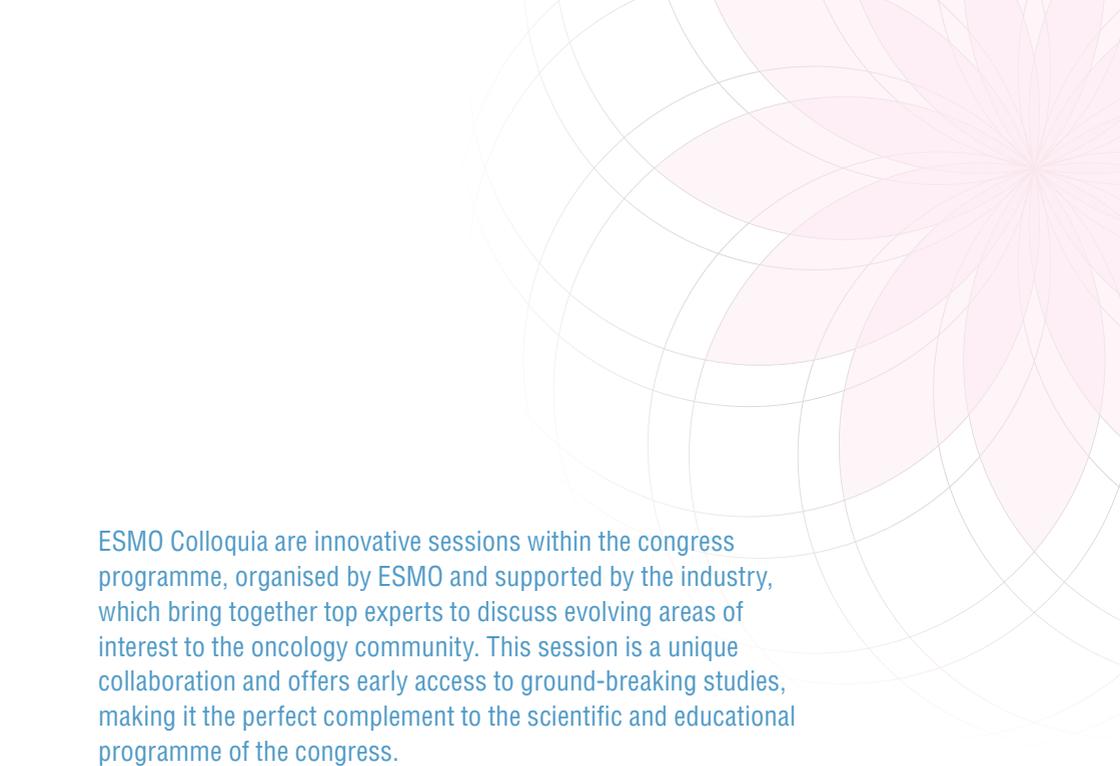

ANGIOGENESIS ACROSS TUMOUR TYPES

SINGAPORE
SUNTEC, Hall 332

FRIDAY 18 DECEMBER 2015
12:45-14:05

Chairs

Fortunato Ciardiello, Naples, Italy
Andrés Cervantes, Valencia, Spain

ESMO Colloquia are innovative sessions within the congress programme, organised by ESMO and supported by the industry, which bring together top experts to discuss evolving areas of interest to the oncology community. This session is a unique collaboration and offers early access to ground-breaking studies, making it the perfect complement to the scientific and educational programme of the congress.

During this ESMO Colloquium on angiogenesis you will receive important updates on the biology of angiogenesis, angiogenesis in specific tumour types and the challenges involved in identifying biomarkers.

We invite you to join us.

This educational activity is provided by ESMO with sponsorship from **Lilly Oncology**.
