

INSTRUCTIONS FOR PRESENTERS: PROFFERED PAPER AND MINI ORAL SESSIONS

We look forward to listening to your presentation and thank you in advance for your co-operation in following these guidelines.

ONSITE ATTENDANCE

As presenting author, your presence is requested onsite in Berlin and therefore, you are required to register for the Congress, [here](#). The early registration fee will be applied automatically. Should you encounter any issues, please contact our Registration department at registration@esmo.org.

Before you travel:

ESMO requires that all attendees are fully vaccinated against Covid-19 OR recovered in the last 6 months with at least one dose of a vaccine by the time of the Congress. Vaccination proof will not be checked by ESMO.

Further information are available [here](#).

YOUR PRESENTATION PREPARATION

- Presentation must be prepared in Microsoft-PowerPoint(*pptx), in **16:9 format, landscape orientation**. Macintosh presentations (i.e., KeyNote) cannot be accommodated.
- We strongly recommend the use of the [official ESMO Breast 2023 slide template](#). Should you choose your own, kindly note that Speaker presentations must not include any commercial promotion such as the use of sponsor slide templates, logos, branding or colours, or any identifiable slide templates from other medical.
- Due to current scrutiny regarding financial transparency, **IT IS MANDATORY that you include a disclosure slide at the start of the presentation**, even if to confirm there is nothing to declare.
- It is required that your presentation strictly adheres to the given presentation talk time. Based on the presentation outcome you received, please include in your PowerPoint:
 - **PROFFERED PAPER:** recommended max 12 slides (for 12 mins presentation)
 - **MINI ORAL:** recommended max 6 slides (for 5 mins presentation)

As a general rule, you should not present more than 1 slide per minute.

- Videos can be linked or embedded. Please remember to upload your video files separately if you are using PowerPoint 2007 or older version, as they cannot be embedded into the presentation.
- Use high-contrast lettering, and not too much text per page (max. 10 lines or 15-20 words). Make sure that you use high-contrast colors for the best definition of your text.
- Visual material supports your lecture and should not be the transcription of it.
- To avoid any compatibility problems, please do not use special characters (i.e., ", Ö, Ø, ñ, ®, ý), {etc} and please do not use spaces to name your presentation or movie files.
- QR (Quick Response), AR (Augmented Reality) and text key codes are allowed. However, although ESMO accepts that these may go to a commercial/branded website, we suggest avoiding links to websites containing blatant product advertising. If you intend adding a QR, AR or a text key code to your PPT, please add the following disclaimer notice: "Copies of this presentation obtained through QR, AR and/or text key codes are for personal use only and may not be reproduced without written permission of the authors".

YOUR PRESENTATION UPLOAD
