INTRODUCTION

Conference background

Today, it is imperative for basic researchers to understand and address clinical challenges and for physicians to possess the knowledge and skills to integrate and use new technologies. IMPAKT is a unique Breast Cancer Conference that meets these needs by bridging the gap between research and clinic while also providing the right environment for young professionals to network with and access the knowledge of their senior counterparts.

IMPAKT focuses on translational research in breast cancer and on innovative ways of developing new agents. It is a valuable meeting which brings together pre-clinical and clinical researchers from Academia and Industry, junior and senior oncologists and facilitates the role of mentor and the importance of sharing knowledge to improve careers. The rapid translation of biologically-based laboratory discoveries into daily clinical practice is also important, but equally important is the trip back from the clinic to the laboratory, to further explore and explain clinically observed tumor biology and behaviour.

IMPAKT was launched in 2009 by the Breast International Group and the European Society for Medical Oncology, in collaboration with a multidisciplinary alliance of European breast cancer organisations and patient groups and is an annual conference.

Target audience

The Conference programme primarily targets young researchers, clinicians and young pathologists interested in translational research. IMPAKT is also be of interest to imaging specialists, scientists, medical oncologists, breast surgeons, radiation oncologists, drug developers within the pharmaceutical sector and other professionals involved in breast cancer research.

All those who have a specific interest in translational research, new agents, molecular and functional diagnostics, biomarkers and cutting-edge research applications in the clinical setting will benefit from attending.

IMPAKT is unique

- It provides information on the myriad discoveries that already have or will have impact on breast cancer research and treatment in the near future.
- It puts into perspective advances on a molecular level in cell biology, molecular pathways exploited for clinical purposes, and a wide range of diagnostic, prognostic and predictive tools for breast cancer.
- It is the place where discussion about what biomarkers are, how they should be used in clinical trials and decisions about biomarkers are taken.
- It keeps in tune with scientific progress in breast cancer research as the therapeutic road from the laboratory to the clinic shortens.
- It has educational sessions for existing diagnostics and new systems providing an understanding of how diagnostics should be added to translational research.
- It focuses on premier data and technologies that sharpen the knife of molecular dissection and define the cellular structures that determine responsiveness to novel therapies.
- It includes sessions on on-going clinical trials.
- It promotes collaboration in breast cancer research, new ideas for projects and foster new contacts.

IMPAKT is more than just a breast cancer meeting. It represents a strong commitment to foster education by a growing and united European multidisciplinary breast cancer alliance and to work together to keep pace with cutting edge advances in translational research and their relevance for making treatment decisions in daily practice.

ESMO PRIORITY LIST

The sponsorship point system has been designed to recognize sponsor investment in ESMO projects and sponsorship points are allocated in acknowledgement of each EUR 10,000 of sponsorship investment.

a. Accrued sponsorship points define the position of each company in the ESMO sponsors priority list. The priority list identifies companies that will be offered visibility at, and privileged within, events such as the ESMO Congress and related activities, for example satellite symposia, Industry display area space, hotel accommodation, etc.

b. Companies with the same number of sponsorship points are selected by a ballot system.

c. ESMO nevertheless retains the right to privilege smaller emerging companies when their products are innovative and the Society feels that their participation in the event would be of benefit to delegates. When satellite symposia are assigned in relation to this clause, the company guarantees that the programme will not be presented elsewhere before the ESMO Congress. Furthermore, all sponsorship items assigned in relation to this clause are subject to specific terms and conditions.

d. Sponsorship points are cumulative, but expire at the end of the 24th month after which they have been allocated.

e. ESMO recognizes the importance of long-term relationships. To this end, 2 points will be assigned to companies for their presence and loyalty on a yearly basis for a minimum of EUR 10,000 of support. The 2 points will not expire. However, for each calendar year during which a company has not been present (with any kind of support), the 2 points are deducted from the company’s record.

5TH IMPAKT BREAST CANCER CONFERENCE POLICY
INDUSTRY SATELLITE SYMPOSIA AND OTHER ACTIVITIES

Structure

1.0 Structure
Satellite symposia will take place from Thursday, 2 May to Friday 3 May 2013. Details of available time-slots may be obtained by email from the ESMO Marketing Team (marketing@esmo.org).

1.1 Satellite symposia programmes
All Satellite symposia programmes must be approved by the IMPAKT Scientific Committee with a view to ensuring the scientific quality and scope of such symposia within the framework of the Conference.

Companies are strongly encouraged to establish a programme in line with the general concept of the Conference scientific programme. Current IMPAKT policy encourages the avoidance of topic and/or statement repetition, and/or lectures which may be in conflict with what the IMPAKT Scientific Committee considers to be a proper, scientifically well-founded point of view.

BIG and ESMO reserve the right to veto speakers. In order to ensure a greater diversity of opinion and scientific contribution, BIG and ESMO recommend that a speaker presents at no more than one (1) Satellite symposium. However, please be informed that a speaker may be involved in a maximum of two (2) symposia during the Conference. Any changes in the provisional or in the final programme must be forwarded immediately to the IMPAKT Scientific Committee (impakt@esmo.org).

Each company is responsible for the registration of its own Satellite symposium speakers to the Conference. Registrations are not arranged by the IMPAKT Conference Secretariat.

Submitting an abstract to the IMPAKT Scientific Committee and the official Conference programme implies that the study reported therein will not be presented as such during the Conference at any Industry Satellite symposium and that it has not been presented elsewhere. Therefore, presenting an abstract certifies that it is not connected to any Industry Satellite symposia.

1.1.1 Penalty
Infringement of IMPAKT policy 1.1 will incur a penalty. Should a company modify the content of its Satellite symposium without notifying and receiving approval from the IMPAKT Conference Secretariat, 100% of the points assigned for the organisation of the Satellite symposium will be cancelled.

1.2 Applications
The IMPAKT Marketing Department will approach companies with a proposal to participate in the 5th IMPAKT Breast Cancer Conference. At the Conference, Satellite symposia are an integral part of the sponsorship packages which are processed on a first-come/first-served basis.

One time-slot will be assigned to each applying company on the basis of the sponsorship package selected.

1.3 Programme timeline and deadlines
On application Each company should inform the IMPAKT Conference Secretariat about the type of product(s) and the treatment area on which the Satellite symposium programme will be based.

25 January 2013 The proposed programme, including the title of the Satellite symposium and all presentations, the names of both proposed speakers and chairperson(s), must be submitted using the official IMPAKT programme template to the IMPAKT Conference Secretariat (impakt@esmo.org).

Mid-February 2013 Notification by the IMPAKT Secretariat of the acceptance / rejection / request for modifications to the programme as decided by IMPAKT Scientific Committee.

8 March 2013 Receipt of the final programme for insertion in the programme book.

#### 3.1 Technical and monitoring staff

One technical staff member and one hostess are assigned to each room. Additional hostesses can be booked through MAOS (maos@skynet.be).

#### 3.1.1 Alternative stage set-up, additional equipment and/or personnel

Owing to the limited set-up and dismantling time necessary between Satellite symposia, additional audiovisual equipment can only be ordered through the official supplier. However, should a company wish to use its own technical supplier, the company must check in advance with the SQUARE that the proposed “Technical Requirements” of the Symposium are feasible and compatible with existing equipment. These requests must be communicated to dolores.sobrino@square-brussels.com no later than 12 April 2013.

#### 3.2 Food & Beverage areas

Requests for F&B functions should be addressed to the IMPAKT Conference Secretariat (impakt@esmo.org) indicating the type of function (coffee break, cocktail, standing lunch, other) and number of guests. The assignment of F&B time-slots and areas will be processed on a first come, first served basis. *Only when the time-slot and location are assigned will the company be given the contact details* of the catering person responsible for their requirements and through whom they can place their orders.
F&B functions should not last more than 1 hour. Whether they can take place before or after the Satellite symposium will depend on the availability of the F&B area.

No food or beverages are allowed inside any part of the Gold Hall or Silver Hall. Please also note that any food items served in the congress centre must be purchased through the official catering service.

### 3.3 Duration of the Satellite symposium

All companies are obliged to respect the start and closure times of the Satellite symposia. Extensions beyond assigned time-slots are not allowed under any circumstances. Infringement of this regulation will affect the Sponsors priority list for future IMPAKT Conferences.

#### 3.3.1 Penalty

Infringement of IMPAKT policy 3.3 will incur a penalty. Should an overrun of more than 5 minutes occur, 50% of the points assigned for the organisation of the Satellite symposium will be cancelled.

### 3.4 Installation, rehearsal and dismantling times

One plenary room is used during the IMPAKT Conference therefore the set-up and dismantling times are extremely limited and must be respected in full. Please refer to the online programme to check the timing. For additional queries please contact the IMPAKT Conference Secretariat (impakt@esmo.org).

Rehearsal time may be available but is not guaranteed. Please contact the IMPAKT Conference Secretariat (impakt@esmo.org).

### 3.5 Invited speakers preview centre

Upon request, companies organising a Satellite symposium may use the invited speakers preview centre and follow the instructions that the IMPAKT Conference Secretariat prepares for its own speakers. Alternatively, private meeting rooms in the congress premises may be rented through the SQUARE (dolores.sobrino@square-brussels.com).

### 3.6 Industry satellite symposium webcast

Only sponsors of OncologyPro will have the opportunity to include their Satellite webcast in OncologyPro (for a small technical fee). Other Industry Satellite organisers will not have the opportunity to include their Satellite webcast in OncologyPro.

Please note that for technical reasons, companies that wish to have their Satellite webcast included in OncologyPro or for internal purposes are obliged to use the official speaker preview centre and are not allowed to change the audiovisual equipment included in the rental package.

Additional information can be requested from the IMPAKT Conference Secretariat (impakt@esmo.org).

### 3.7 Satellite symposia contacts/representatives

Each company will provide the name of one person who will be responsible for the organisation of its Satellite symposium and notify the IMPAKT Conference Secretariat (impakt@esmo.org) as soon as possible about any changes.

If several people are responsible for various aspects (financial, organisational, etc.) of the symposium, the company must inform the IMPAKT Conference Secretariat accordingly. The IMPAKT Conference Secretariat strongly recommends, however, that only one (1) contact person is appointed.

If an agency is appointed to manage and organise the Satellite symposium, the company must inform the IMPAKT Conference Secretariat and provide the agency name and contact person details. Only official agency representatives will receive information material from the IMPAKT Conference Secretariat.

### 3.8 IMPAKT 2013 website and programme book

Approved Satellite symposia programmes will be published online in the Satellite symposia section of the IMPAKT programme and in the Conference programme book if they are received no later than 8 March 2013. Satellite symposia programmes published in the IMPAKT programme book will follow the layout determined by the IMPAKT Conference Secretariat. The submission of the programme must follow the format of the IMPAKT template, which may be requested from impakt@esmo.org.

The following details are necessary for inclusion in both programmes (online and book): session title, lecture titles plus allocated time for each presentation, full speaker names and contact details.
3.9 Abstract presentation during the Conference
Each company must guarantee that studies reported in accepted abstracts will not be presented as such during the Conference at any industry-related Satellite symposia prior to its presentation during the official Conference programme.

3.10 IMPAKT Abstract book
Abstracts related to satellite symposia are not published in the IMPAKT Abstract book.
4.0 Promotion of Satellite symposia and other activities

Infringement of these policies will affect the sponsors priority list for future meetings. Please see the penalties relating to each of the following regulations.

4.1 Publications and printed material

Each company will ensure that all company publications referring to Satellite symposia mention: “IMPAKT 2013 Industry Satellite symposium” in order to avoid any confusion with the official scientific programme. For this reason, all companies must submit a copy of the final publication file before production gets underway. This final overview must be submitted for approval to the IMPAKT Marketing Department (marketing@esmo.org) and allow time for approval and notification (approximately 1 week) ahead of production and shipment to Brussels. Shipment instructions for “bag inserts” will be given upon approval. The IMPAKT Conference Secretariat accepts no responsibility for programmes which are submitted late.

The IMPAKT Conference Secretariat suggests avoiding cultural or historical references in printed material and bears no responsibility should any such references cause offence.

4.1.1 Penalty

Infringement of IMPAKT policy 4.1 will mean that the printed material can not be distributed. Should it be used for promotion anyway, 50% of the ESMO points assigned for the organisation of the Satellite symposium will be cancelled.

4.2 Reproduction of logos

Each company is entitled to use the official IMPAKT Breast Cancer Conference logo on invitations and promotional documents related to the approved Satellite symposium.

Companies are not allowed to use the BIG and ESMO corporate logos under any circumstances.

4.2.1 Penalty

Infringement of IMPAKT policy 4.2 will mean that printed material showing the BIG and/or ESMO corporate logos can not be distributed. Should it be used for promotion anyway, 50% of the ESMO points assigned for the organisation of the Satellite symposium will be cancelled.

4.3 Inviting participants

Inviting participants to your satellites has never been this easy and effective!

Within each of our packages we allow our Industry partners to showcase their satellites via a digital satellite invitation/web link whereby we invite our delegates to find out more about your session(s).

In the IMPAKT 2013 Conference E-Newsletter there will be a dedicated Industry E-News section whereby all these digital invitations will be grouped. These invitations will also be included in our online programme to further increase awareness. Depending on your level of sponsorship you will be allowed a combination of a pre-conference and post-conference web link s or just a pre-conference web link.

From the 1 March 2013 your satellite web link will go live (This will be subject to prior submission before the 22 February deadline and subsequent approval by the ESMO Marketing Department).

The Pre- IMPAKT 2013 Conference E-Newsletter will be sent out in early April 2013.

The Post-IMPAKT 2013 Conference E-Newsletter will be sent out in mid-May 2013 and the Industry partners will just need to provide us with their updated content prior to the IMPAKT 2013 Conference in late April 2013.

• To ensure that the IMPAKT 2013 Congress logo is properly protected, ESMO has defined guidelines for its use, which permit the use of the IMPAKT logo under specific conditions.
• Cancellation of the Web Link should be sent in writing to the ESMO Marketing Department.

The web page will only be linked once ESMO approval is confirmed and the payment for the sponsorship package is received.

Direct shipments will only be accepted on move-in dates and hours, this is also applicable for courier shipments.
Note that the congress centre is situated in the centre of Brussels.
It is not advisable to send trucks of more than 8 meters.

To avoid traffic congestion and to allow us a fast and smooth move-in, an unloading slot will be required for all vehicles larger than a van.

Trucks need to be removed from the unloading area once unloading has been completed. Trucks can park free of charge around the streets port - haven Brussels or further up the canal direction Vilvoorde.

Furthermore for goods from outside EC, courier companies will not be able to clear your goods because of the lack of fiscal representation.

cLEAD SYSTEM INFORMATION AND FORM

The IMPAKT 2013 cLead system

The IMPAKT 2013 cLead System is a fast and easy way to record visitors’ contact information. By simply scanning a visitor’s name badge with the supplied scanner, that contact is entered into your own visitor database, including all relevant product information or comments which have been added to these visitors’ profiles beforehand. Following the event, approved visitors’ address data can be provided in printed form or as a MS Excel file, or made available with proper access rights through an online platform.

1. **Order**
   - To guarantee the availability as well as the lower rate prior to the deadline, please order the required number of scanners as soon as convenient possible.

2. **Order confirmation**
   - After receipt of your order we will confirm the receipt and invoice & charge amount due.

3. **Configuration**
   - Prior to the event you will receive a link and a password for accessing our online database. There you can check the edited names of products to be displayed on the handheids and download the data after the event.

4. **Lead capture**
   - Onsite, you can pick up your scanner at the lead system service desk. Our trained staff will be available to answer your questions during the opening hours of the event. Every evening or at the end of the event when returning the scanner at the service desk, the collected data is synchronized from your scanner to the cLead server.

5. **Data provision**
   - As soon as the data stored on the scanner is synchronized with the database you can access, check, print or download your collected address data in the online database.
   - Since not all delegates will provide the registration department with the complete contact information, we cannot guarantee the accuracy of the data.
Scan Options
