

Targeted therapy optimising the future of GU cancer care – realising the value, exploring the evidence

Friday 20 October 2023 • 18.00-19.30 CEST
Málaga Auditorium, Hall 10, IFEMA MADRID, Madrid, Spain

Please join us at ESMO 2023 for an interactive symposium with experts in the field of genitourinary oncology from across Europe

Chaired by:

Speakers:

Dr Aurelius Omlin
Switzerland

Prof. Dr Laura-Maria Krabbe
Germany

Dr Friederike Schlürmann
France

Dr David Olmos
Spain

Dr Niven Mehra
Netherlands

Dr Guillermo De Velasco
Spain

Prof. Alison Birtle
United Kingdom

Case-based discussions

Interactive Q&A session

Polling questions

Topics of discussion will include:

- The need for personalised treatments in cancer care, through the use of germline testing and genomic profiling
- The role of personalised care in balancing effective treatment options with the patient's quality of life
- The latest data for GU oncology in relation to targeted treatments and their potential impact on future standards of care
