

THE ROLE OF ALTERNATING ELECTRIC FIELDS IN THE THERAPEUTIC MANAGEMENT OF PATIENTS WITH ADVANCED NON-SMALL CELL LUNG CANCER

Chairs

Ticiana Leal, Atlanta, GA, USA

Gerben Borst, Manchester, United Kingdom

MONDAY, 16 SEPTEMBER 2024

13:00 – 14:30 CEST, OVIEDO AUDITORIUM – HALL 3

13:00	Welcome and introduction	Ticiana Leal, Atlanta, GA, USA
13:10	Alternating electric fields in cancer therapy: Mode of action and principles of cytotoxicity	Carsten Hagemann, Würzburg, Germany
13:25	Clinical evidence for efficacy & safety of electric fields therapeutic applications for patients with advanced non-small cell lung cancer	Ticiana Leal, Atlanta, GA, USA
13:40	Emerging clinical evidence on the efficacy of electric fields in controlling sanctuary metastatic site	Minesh Mehta, Miami, FL, USA
13:55	Research insights in future developments of alternating electric field applications in oncology and potential for combination with systemic agents and irradiation	Gerben Borst, Manchester, United Kingdom
14:10	Q&A and discussion	All speakers
14:25	Concluding remarks	Gerben Borst, Manchester, United Kingdom

This educational activity is organised by ESMO
and supported by Novocure via a medical grant.
