

ESMO VIRTUAL MEETING ON METASTASES - PROGRAM

| AMGEN Satellite Symposium | | |
|--|--|---------------------|
| Session title | Presentation title | Speaker |
| "Putting the patient first: case-based treatment update for the optimal management of bone metastases from solid tumors" | A new era in skeletal health - targeting RANK Ligand for practice changing results in patients with bone metastases from solid tumours | Luis Costa, PO |
| | Bringing meaningful benefits to patients – denosumab in clinical practice | Bertrand Tombal, BE |
| | | Ingo Diel, DE |
| | | Karim Fizazi, FR |
| | | Roger Von Moos, CH |
| ESMO Virtual Meeting on Metastases | | |
| Session title | Presentation title | Speaker |
| Basic science | Treatment tailoring according to the biology of metastasis | Fabrice André, FR |
| Dissemination and colonization: The tumor-vessel interface | Anti-angiogenic therapies: Responses and adaptive / evasive resistance | Oriol Casanovas, ES |
| | Lymph node metastasis (Clinical and experimental) | Kari Alitalo, FI |
| Site specific metastases | Brain metastases | Frank Winkler, DE |
| Clinical application of bone-targeted treatments | Patient selection, use in other solid tumours and cost effectiveness | Matti Aapro, CH |
| Future therapeutic strategies | Drugs in development, use of biomarkers | Robert Coleman, GB |
| Multidisciplinary management of bone metastases | Pain management | Carla Ripamonti, IT |
| Prostate cancer | Bone targeted treatments for bone metastases | Bertrand Tombal, BE |
| | Prevention of metastasis | Matthew Smith, US |
